Dear Mr. Greg Sanders,

I am writing you in regards to relocation of the California Sea Otters. It appears that the translocation to San Nicolas island has not worked. I am asking that you consider it a failure.

I would also encourage you to eliminate the "no otter zone". How does an otter (the free roaming creature that it is) know what area it can go into & which it cannot?

Last the removal of sea otters from San Nicolas Island at this time would cause more loss of these animals who know it as home.

Thank you for your consideration in this matter.

Sincerely,
Elsie Fraunem
